

Magnus Health

COVID-19 Screening App

The robust Magnus mobile app allows parents to complete our new Daily COVID-19 Screening Questionnaire each morning for schools that may require it for student and/or faculty attendance. The app will allow each parent to answer a series of questions customized to your school's preferences to enhance their ability to provide a safe learning environment for their entire school community.

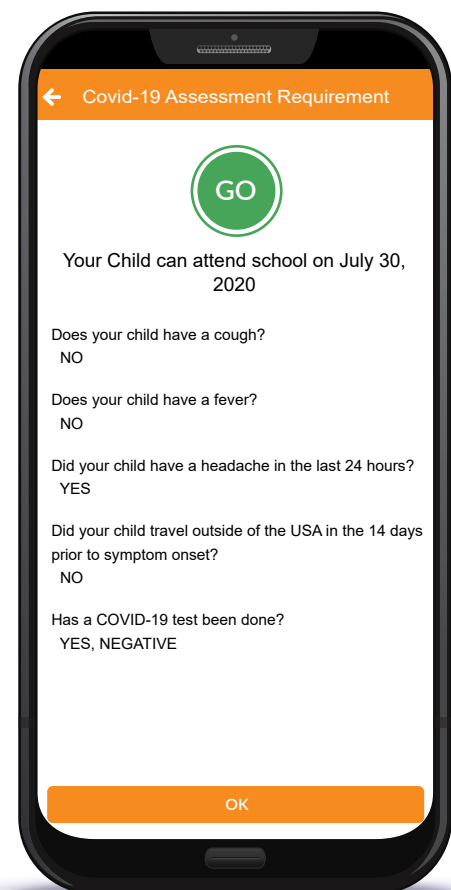

In addition to the above, parents can complete all requirements, fill in student health data, and receive app notifications from the school regarding their students all on their phone through the very same app! These secure notifications keep parents abreast of health center visits, medication administration, or even a missing form for an upcoming field trip.

▶ Parents Using the PHR Mobile App Can:

- Complete health data requirements seamlessly & on time with just a few clicks.
- Complete COVID-19 Daily Student Screening Assessments
- Avoid having to contact the school for health forms post-graduation

▶ How to Download & Setup the PHR App

1. Log into Magnus as you normally would for your school. For most, this means logging into your school website and navigating to the Magnus Login button.
2. Hover over your name with Magnus (top left of screen).
3. Choose "Change Credentials."
4. Create a Username & Password that only you know and will remember. This username/password combination will be used as your PHR mobile app login only.
5. Download the "Magnus Mobile V2" app from the Apple Store or "Magnus Health" from the Google Play store.

Contact the Magnus Help Desk today with any questions you have regarding your Magnus Account!
